## Design your own bottle worksheet

1. Design your bottle by writing, drawing and colouring in the light grey shape.
2. Fold and cut the dotted line. Then cut out the grey shape (light and dark) as one large piece.
3. Carefully fold along all the solid lines. Put some glue on the dark grey flaps and paste them in.
4. Roll up your script and put it in the opening that is now at the top of your bottle!
